JESS HIDER – GAMING

Monday 6th March | 12:00pm - 12:30pm

In this talk, Jess will chart a course through careers in the video games industry, sharing her own history, the process of making games, and what life is like as a game designer at Rare. There's pirates, pieces o' eight, and plenty of puppers along the way!

RARE

JANE WOOD – FASHION & TECHNOLOGY

Monday 6th March | 12:45pm - 1:15pm

When Jane says she works in fashion, people automatically assume she is a designer, but far from it, she is fascinated by the science of fabrics and textiles. After struggling with her studies, but with a love for chemistry and no real plan, she has had an industrial and academic career in fashion and textiles that has taken her worldwide. She has loved every minute of it!

MANCHESTER
1824
The University of Manchester

SHELEENDRA FERNANDO – CONSTRUCTION

Tuesday 7th March | 12:00pm - 12:30pm

During his school days, the construction industry was not widely shown to Sheleendra, and he doesn't think this has changed. He wants to demonstrate the options of routes into construction whether it's through university, graduate schemes or internships. He will focus on architecture and the methods of studying architecture, what it might entail, examples of his recent experience and projects he has worked on.

KATE & SHRDHA – LAW

Tuesday 7th March | 12:45pm - 1:15pm

Kate & Shrdha's talk will cover what a Lawyer does and how to get started in the industry. They will go through some interesting cases and provide suggestions on programmes, films and books so that you can get an insight into the legal sector. They even have a fun quiz to see if there is a Lawyer within you already!

NELSONS
Business Law | Personal Law | Investment

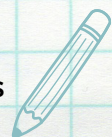

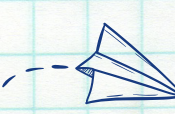

LAURA TAYLOR – MEDICINE

Wednesday 8th March | 12:00pm - 12:30pm

Unsure of NHS careers past being a doctor or a nurse? In Laura's talk, she discusses her career path, the different roles that come under biomedical science, their impact on hospitals, and the vital information you need to know to become a registered biomedical scientist!

NHS

EVE RALPH – SPORTS

Wednesday 8th March | 12:45pm - 1:15pm

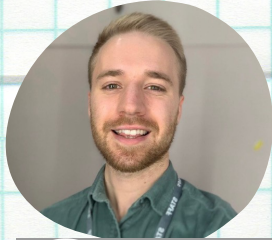

Eve is the Equality, Diversity & Inclusion coordinator at Leicester City in the Community and is passionate about increasing opportunities for both SEND and females within football. She's a big football fan, which has shaped her further education pathway and career to date. She's a cofounder of Her Game Too CIC – an organisation set up to raise awareness of sexism in football and encourage more females to get involved in the sport.

OWEN LLOYD – THEATRE

Thursday 9th March | 12:00pm - 12:30pm

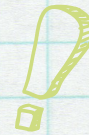

After working in various front of house and venue management roles, Owen has recently taken on a theatre management role at Her Majesty's Theatre in the West End, home to long-running hit show Phantom of the Opera. In this session, Owen will be discussing his role as a theatre manager, the theatre and performing arts industry as a whole and breaking stereotypes and myths in the industry.

BEN SEABY – ENGINEERING

Thursday 9th March | 12:45pm - 1:15pm

Having been interested in electronics and technology from his early teens, Ben was encouraged by his school to learn more and get involved in engineering as a career. Ben's talk will cover his degree in electronic engineering in Manchester, he moved into designing products for the oil, gas and mining industries, which presented a complex series of challenges.

JO EDWARDS – EXPLORING YOUR OPTIONS

Friday 10th March | 12:00pm - 12:30pm

Jo's talk will look at her education journey through both school and university and the choices that she made with two core messages: "it's okay to change your mind" and "do plenty of research". Jo will also talk more generally about her experience in IT and Banking, especially regarding not making assumptions about jobs!

MONEY

TONY RUSCOE – TECHNOLOGY

Friday 10th March | 12:45pm - 1:15pm

Tony Ruscoe has over 20 years of experience in the tech industry. He's been working at Google for the last 12 years, where he's currently one of their staff user experience engineers. He was writing his first computer programs at 8 years old, but didn't consider working with computers until 10 years later. With GCSEs in art, music and drama, and A levels in English language and theatre studies, he's always been keen to balance the creativity of art and design with the science of engineering. In this talk, he will share how his creative skills have influenced his career.
